

## HP-700 Hydraulic hand pump

Features:

- Two stage hydraulic system design, high flow and pressure
- Pressure can be set according to actual need
- The body is made of high strength and light metal, high strength and enhanced engineering plastics
- Internal over pressure safety valve to ensure safety
- While using, please turn the oil cover to “on”, then “off” after working

## HP-700A Hydraulic hand pump

Features:

- Pump is designed with two stage of high and low speed for quick oil output
- Internal safety valve makes auto-relief when it reaches set value
- Vacuum oil receptacle can work at any angle
- Made of high strength and light metal, high strength and sturdy
- Longer handle makes labor saving and quick oil output

## FHP-700 Hydraulic foot and hand pump

Features:

- Pump is designed with two stage of high and low speed for quick oil output.
- Internal safety valve makes auto-relief when it reaches set value
- Retract oil by releasing pressure valve while using
- Made of high strength aluminium alloy, weight only 8.6kg

Model	HP-700	HP-700A	FHP-700
Reservoir Capacity	1L	0.72L	1L
Output Pressure	700bar	700bar	700bar
Oil Delivery at High Pressure	2.5cc /stroke	2.26cc /stroke	2.26cc /stroke
Oil Delivery at Low Pressure	11.5cc /stroke	12.26cc /stroke	12.26cc /stroke
Weight	5kg	9.6kg	8.6kg
Standard Accessories	2m hydraulic hose	2m hydraulic hose	2m hydraulic hose
Packing	Paper carton	Paper carton	Paper carton
